### innov8rs

The #1 Glocal Community for Corporate Innovators now coming to

# Singapore

25-26 January 2018

### Beyond innovation theatre.

By now, most companies are running some type of innovation program to launch new products and services, bring in new skills and mindsets and change the company culture. Not all efforts are leading to the desired results.

During #Innov8rs Singapore, we'll focus on getting actual results from your innovation program – beyond just playing innovation theatre.

#### You'll dive into topics like

# succeeding with innovation labs, incubators and accelerators

- # structuring, scaling and sustaining intrapreneurship programs
- # culture of innovation, entrepreneurial mindset and skills
- # innovation management, funding and metrics
- # leadership buy-in and organizational alignment
- # experimentation, agile and rapid prototyping
- # digital transformation and organizational effectiveness

#### On stage: global innovation experts

## Not another conference. It's a tribe.

Beyond the high-quality sessions and diversity of speakers, past participants valued most meeting all these people in jobs like them and facing similar challenges, for countless and endless conversations. Many stay connected long after the conference, always just a phone call away.

We want you to connect, collaborate and co-create with peers. That's how we design the event. That's why we limit the number of participants. #Innov8rs is not just another conference. It's a tribe.

You'll meet corporate innovators of all trades, all chasing similar objectives and facing similar challenges, across companies and industries:

# intrapreneurs or corporate entrepreneurs

# innovation (program) managers and directors

# heads of labs, incubators and accelerators

*#* corporate venturing, strategy and business development managers

# R&D and product development professionals

# HR and organizational transformation leaders

# Here's what past participants said.

Since 2011, we've hosted intimate and immersive events in 15+ innovation hotspots around the world.
