Hacking Your Company to Foster Intrapreneurship 2

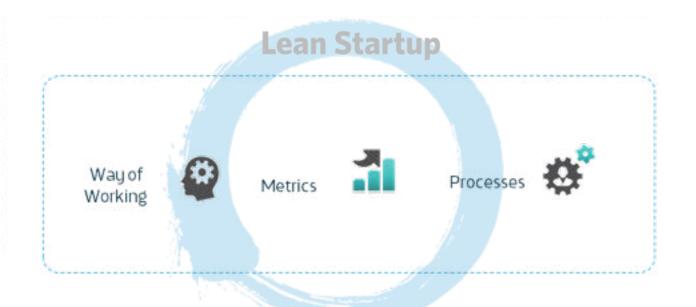

- 1. Start small aim high
- 2. Iterate fast
- 3. Market validation
- 4. Fail fast, fail cheap
- 5. Multidisciplinary teams
- 6. Open Innovation
- 7. The art of killing

You have to learn how to hack your culture

## Helping the business units address challenges

## What branding to use for experiments and tests?

- 2-way, real-time communication with your
- Brand sale. Control who participates in your live stream
- Embed live content within any of your

### Share

### Stream

Start streaming your event at the touch of a button, with an Android, Phone, or GoPro, Add multiple smartphones or cameras to create a multi-dimensional experience.

Notify viewers via any messaging or social app or via push notifications.

### Collaborate

Your community can not only join in, but actively participate in a live experience. At the touch of a button, they can add their camera point of view or ask a question with a live video note.

You need to get buy-in from leadership

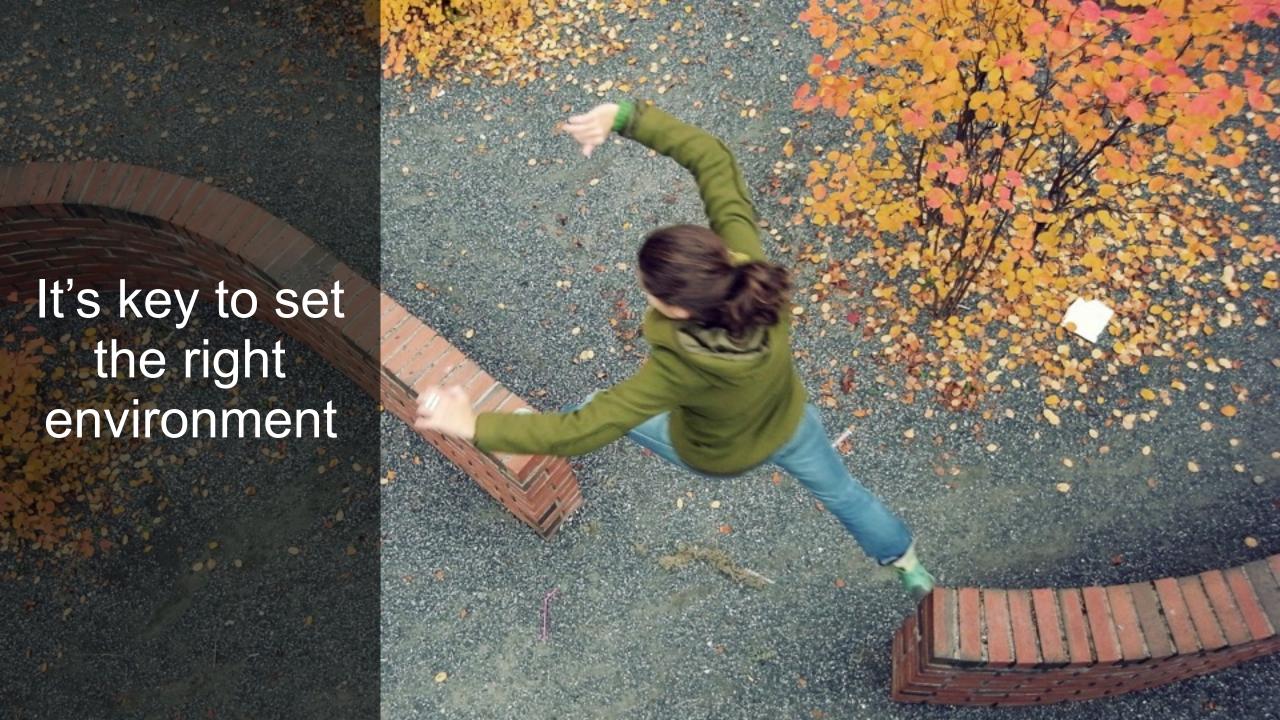

## Getting upstairs in the building

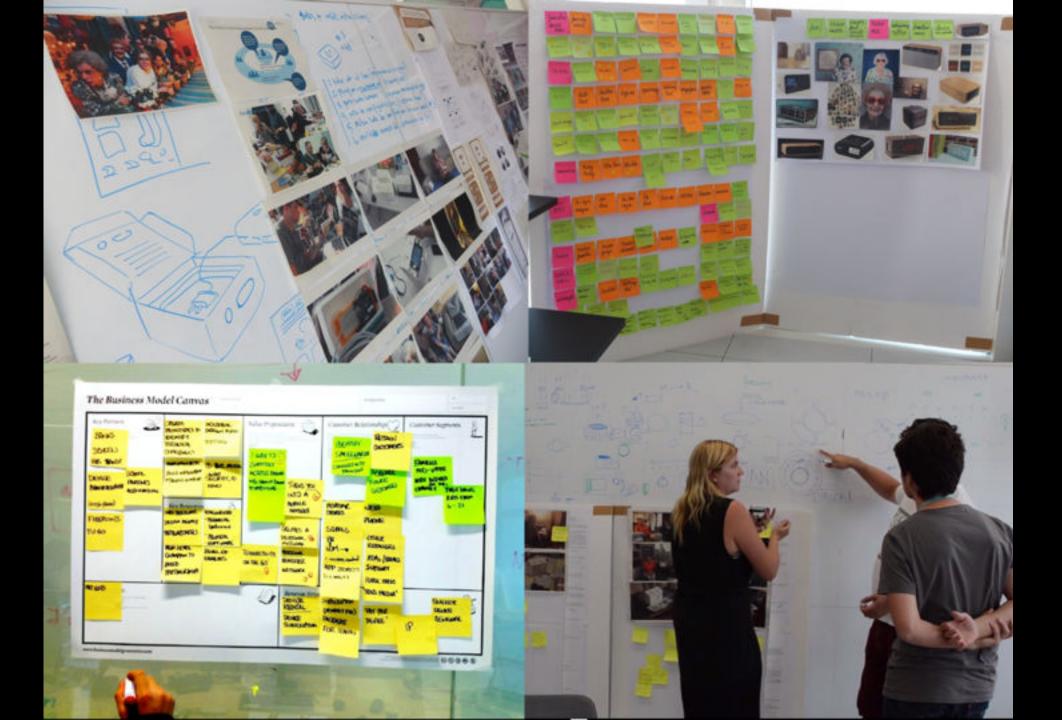

## Trust and autonomy doesn't mean free rein

## Once you create the right environment....

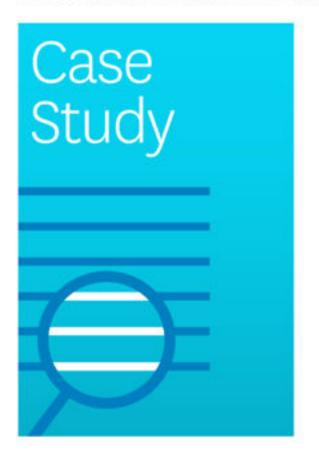

"I haven't really noticed much difference. We deliver a new release every 2 weeks and the speed and the pressure is basically the same"
