Austin

4-5 December 2019

The #1 *glocal* community for
corporate innovators

A different kind of event

We know- there are tons of innovation events out there. But let's be honest: how many did actually provide you with tangible outcomes?

This is not just another innovation conference, where you leave with high-level ideas and a bunch of business cards.

You'll actually learn and do stuff, and you'll leave with tangible output to implement once back in the office.

Innov8rs conferences are carefully designed learning experiences, supporting participants to learn, work on their challenges and connect and collaborate with peers.

No long keynotes nor boring panels with talking heads only interested in hearing themselves, but hands-on, practical formats- with 80% happening in smaller working groups.

Since 2011, we've hosted more than 25 conferences in global innovation hubs from San Francisco to Stockholm to Shanghai to Singapore to Sydney. We're excited to get to Austin next!

“

“The most varied and beneficial conference I've attended over the past 15 years.”

Why Join Innov8rs Austin

Loved by peers

Beyond the high quality content, it's the people you'll meet and the conversations you'll have with them that make you go back home excited and re-energized.

At Innov8rs Austin you'll connect, collaborate and co-create with peers. That's how we design the event. That's why we limit the number of participants. And past participants loved it.

“

“Unlike other conferences, mixing with like-minded people made it feel like you were really learning something, rather than watching an endless stream of startup pitches and panel discussions that aren't really saying anything original at all.”

“

“There's a diversity of people here. There's C-suite, there's new to the innovation space doers. And because of that diversity you see different perspectives and approaches to bring innovation within an organization.”

“

“This is a fantastic conference. Everything has been top notch. I love the tagline that it is a tribe, because it is a group of people that shares amazing ideas.”
